-

Step-by-Step Instructions

Creating Each Product

1. Click **" + Add product"** button
2. Enter the **Product Name** (from above)
3. Enter the **Product Description** (from above)
4. Click **"Add product"**

Adding Prices to Each Product

1. In the product page, scroll to **"Pricing"** section
2. Click **" + Add another price"** (or the first price if just created)
3. Enter the **Price Amount** (e.g., 29.00)

4. Select **Billing Period** (Monthly or Yearly)
5. Enter **Price Description** (e.g., “Collector Plan - Monthly”)
6. Click **“Add price”**
7. **IMMEDIATELY COPY THE PRICE ID** (starts with `price_...`)
8. Paste it into the corresponding field in this document
9. Repeat for the second price (monthly/annual)

Finding Price IDs Later

1. Go to the Product page
2. Under “Pricing” section, click on the price
3. The Price ID is displayed at the top: `price_XXXXXXXXXXXX`
4. Click the copy icon next to it

Verification Checklist

Before proceeding, make sure you have:

- [] **6 Price IDs total** (2 for each product)
- [] All Price IDs start with `price_`
- [] All Price IDs are from **Test Mode**
- [] Monthly and Annual prices are correctly paired

Next Step

Once you have all 6 Price IDs filled in above, let me know and I'll:

1. Automatically add them to your `.env` file
2. Test the configuration
3. Confirm everything is working

Just reply with: “I have the Price IDs” and I'll handle the rest!

Troubleshooting

Can't find Price ID?

- Go to the product page in Stripe Dashboard
- Click on the price under “Pricing” section
- The Price ID is at the top of the price detail page

Need to change pricing?

- You can't edit existing prices
- Create a new price with the correct amount
- Update the Price ID in `.env` (I'll help with this)

Accidentally created in Live Mode?

- Switch to Test Mode (toggle in top-right)
- Create the products/prices again in Test Mode
- Use the Test Mode Price IDs

Happy Creating! 🎉
